SHRADDHA MAHESHWARI

ASPIRING DATA ANALYST | TRANSITIONING
TO DATA ANALYTICS | REACT FRONTEND
DEVELOPER | 3 YEARS IT EXPERIENCE |

PROFILE

Data Analyst trainee with three years of experience in IT and software development. Currently building skills in data analytics tools including Excel, SQL, Python, and Power BI through structured learning and hands-on practice. Experienced in data handling, requirement analysis, and API integration through frontend development projects. Strong analytical thinking and problem-solving abilities, with a keen interest in transforming business challenges into actionable, data-driven insights. Actively seeking entry-level Data Analyst or Data Analytics Intern opportunities.

WORK EXPERIENCE

Namya IT Solutions LLP, Hyderabad

APR 2022 - MAR 2025

• Frontend Developer

- Developed and maintained interactive web applications using React.js
- Worked with structured API data and analyzed data fields for HR and payroll modules
- Assisted in validating data accuracy and understanding business data flows
- Collaborated with cross-functional teams to translate business requirements into system-ready data
- Followed Agile methodology including sprint planning, stand-ups, and code reviews

PROJECT

Namya HRMS (In-house Product)

APR 2022 - MAR 2025

• Frontend Developer

- E-commerce App, Built a product browsing and cart management system with React.js. To-Do App, CRUD app with add/edit/delete functionality and local storage persistence. Hello World React, Showcased React component fundamentals.
- Namya HRMS (In-house Product)
- Implemented Core HR, Leave Management, and Payroll modules
- Analyzed payroll and HR data fields for accurate UI rendering
- Integrated REST APIs for real-time data processing
- Data Analytics - Learning Projects
- Performed Excel-based data cleaning and basic analysis on practice datasets
- Practiced SQL queries for filtering, joining, and analyzing datasets
- Created beginner-level Power BI dashboards

Data Analytics – Learning Projects

Working on beginner-level Excel and SQL practice datasets (data cleaning, basic analysis)
